ST. LUCIA ISLAND.

Report from Castries—Sanitary conditions—Yellow fever at Fort de France, Martinique.

Acting Assistant Surgeon Maylie reports, September 28:

Week ended September 26. Sanitary condition of this port and vicinity good. No quarantinable diseases exist. Bills of health from Fort de France, Martinique, are still foul. The sanitary condition of the town and vicinity is officially reported as "unsatisfactory." Yellow fever is officially reported present there as follows: Week ended September 19, 4 new cases and 2 deaths. Week ended September 26, 1 new case and 1 death, with a total of 45 cases and 11 deaths.

VENEZUELA.

Report from Caracas—Status of plague—Quarantine enforced against Venezuela.

The following is received through the Department of State from Mr. John Brewer, in charge of the archives of the American legation, under date of September 21:

New cases of bubonic plague continue to occur in this city.

September 10 one of the prominent citizens of Caracas died from plague, after an illness of several days. This is the first occurrence of the disease among the better class of people.

I am informed that during the past two weeks there have been 4 new cases of plague, 2 resulting fatally.

Quarantine measures are still being enforced against Venezuela, the steamship lines refusing to accept passengers for Colon, Curaçao, Porto Rico, Trinidad, and Colombian ports on this account.

FOREIGN AND INSULAR STATISTICAL REPORTS OF COUNTRIES AND CITIES—UNTABULATED.

CANADA—*Ontario, Niagara Falls.*—Month of September, 1908. Estimated population, 9,500. Total number of deaths, 14, including 1 from diphtheria. Cases: Scarlet fever 3 and diphtheria 2.
